

SHW Access for Remote/Online Low-Residency Students who pay a Reduced Health Fee

Students engaged with Brown via online, low-residency or study away (U.S. based) programs pay a reduced health fee each semester. For the 2025-2026 academic year this is \$118 per semester. Due to licensing regulations governing our clinicians there are limits to the provision of clinical care across state lines. Please review the document below for clarity on when/how you can access services from Student Health and Wellness when paying the reduced health fee. Student Health and Wellness includes the following five offices: Brown Emergency Medical Services, BWell Health Promotion, Counseling and Psychological Services, Student Accessibility Services, and Student Health Services.

Students who pay the reduced health fee can ALWAYS access the following services:

24/7 Nursing advice 401-863-3953
 CAPS on Demand Crisis Line 401-863-3476
 Disability accommodations organized via Student Accessibility Services sas@brown.edu
 TimelyCare Teletherapy Services timelycare.com/brown
 Virtual Workshops/Support Groups (CAPS, BWell, SHS, SAS)
 Sexual Assault Response Line (24/7) 401-863-6000
 Survivor Resource Guide go.brown.edu/resourceguide

Students who pay the reduced health fee can access the following services ONLY while on campus in Rhode Island during in-person program components:

Medical Care at Student Health Services (illness, injury) 401-863-3953
 Appointments with Counseling and Psychological Services (CAPS) 401-863-3476
 BWell SHARE Advocates 401-863-2794
 Emergency Transport by BEMS Ambulance 401-863-4111

Due to license regulations we are not able to see students across state lines for any type of telehealth appointment. Due to this any students who are outside of Rhode Island cannot be seen for the appointments above.
